

Crystalline Canvas

A celebration of Forms & Crystals

Salman ikram

My pots serve as my canvas. Through their gentle contours and simplified forms that aid in the crystalline formation, I aim to convey the profound beauty I discover within the crystalline world. Over time, I've nurtured a profound passion for formulate and reformulate crystalline glazes. These glazes infuse vitality into the intricate interplay of minerals and heat, crafting exquisite patterns that shimmer like precious gems. Each piece I create stands as a testament to the harmonious blend of art and science. The crystalline process is not merely unpredictable; it's about how one interprets the intricacies and results. With every pot I create, I extend an invitation to witness the extraordinary interplay between form and crystals, a celebration of nature's artistry captured in the medium of clay.
